- a) Detection of 35s promoter, nos terminator and various GM maize events at different levels. The sample is deemed non-compliant with regards to Regulations (EC) No 1169/2011 as no English GMO statement is present. The required statement for GMO content is provided in Portuguese on the packaging of the product to indicate the presence of GMO.
- b) Detection of 35s promoter, nos terminator and various GM maize events at different levels. The sample is deemed non-compliant with regards to Regulations (EC) No 1129/2003 and 1130/2003. No label information is provided on the packaging of the product to indicate the presence of GMO, required when a sample contains a GMO level of greater than the 0.9% threshold.
- c) Detection of 35s promoter, nos terminator and various GM maize events. The sample is deemed compliant with regards to Regulations (EC) No 1829/2003 and 1830/2003. The required statement for GMO content is provided on the packaging of the product to indicate the presence of GMO.
- d) Detection of 35s promoter, nos terminator and various GM maize events at different levels. The sample is deemed compliant with regards to Regulations (EC) No 1829/2003 and 1830/2003. The required statement for GMO content is provided on the packaging of the product to indicate the presence of GMO.
- e) 35s promoter and GM maize MON810 event detected (level: <0.1%). The sample is deemed compliant with regards to Regulations (EC) No 1829/2003 and 1830/2003.
- f) Soya protein not detected. The sample is deemed compliant with regards to Regulation (EC) No 1169/2011 as the label information indicates absence of soya.
