SC2 refrigeration records

Food Safety
AUTHORITY OF IRELAND

This record book should be used for recording temperatures of fridges, freezers, and chill displays.

Measure the temperature of the food by:

- taking the temperature of a 'dummy' food (e.g. pre-packed jelly or water).
- measuring core or surface temperatures of food in fridge/freezer. When taking a core temperature, sanitise the probe before and after use.

Measure the air temperature by:

- placing a temperature probe inside the unit
- looking at the temperature of the display gauge.

Refer to advice on using a temperature probe in Section 4 pg 25 of the Safe Catering Pack.

EXAMPLE:

SC2 - Fridge/Freezer/Chill Display Temperature Records
