

**DIRECTIVE 1999/4/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**

of 22 February 1999

relating to coffee extracts and chicory extracts

THE EUROPEAN PARLIAMENT AND THE COUNCIL  
OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 100a thereof,

Having regard to the proposal from the Commission <sup>(1)</sup>,

Having regard to the opinion of the Economic and Social Committee <sup>(2)</sup>,

Acting in accordance with the procedure laid down in Article 189b of the Treaty <sup>(3)</sup>, in the light of the joint text approved by the Conciliation Committee on 8 December 1998,

Whereas certain vertical Directives relating to foods should be simplified in order to take account only of the essential requirements to be met by the products they cover in order that those products may move freely within the internal market, in accordance with the conclusions of the European Council held in Edinburgh on 11 and 12 December 1992, confirmed by those of the European Council in Brussels on 10 and 11 December 1993;

Whereas Council Directive 77/436/EEC of 27 June 1977 on the approximation of the laws of the Member States relating to coffee extracts and chicory extracts <sup>(4)</sup> was justified by the fact that differences between national laws on coffee extracts and chicory extracts could result in conditions of unfair competition likely to mislead consumers, and thereby have a direct effect on the establishment and functioning of the common market;

Whereas the aforesaid Directive was consequently designed to define coffee extracts and chicory extracts, to determine which substances may be added during their manufacture, to lay down common rules concerning the packaging and labelling of such extracts and to specify the conditions under which particular designations may be used for some of these products, in order to ensure their free movement within the Community;

Whereas Directive 77/436/EEC should be brought into line with general Community legislation on foodstuffs, particularly legislation on labelling and methods of analysis;

Whereas the Commission is planning to propose, as soon as possible and at all events before 1 July 2000, the inclusion in Directive 80/232/EEC <sup>(5)</sup> of a range of nominal weights for the products defined by this Directive;

Whereas the general food-labelling rules set out in Council Directive 79/112/EEC of 18 December 1978 on the approximation of the laws of the Member States relating to the labelling, presentation and advertising of foodstuffs for sale to the ultimate consumer <sup>(6)</sup> should apply subject to certain conditions;

Whereas, pursuant to the principle of proportionality, this Directive does not go beyond what is necessary in order to achieve the objectives pursued, in accordance with the third paragraph of Article 3b of the Treaty;

Whereas, when this Directive is adapted in the future to general Community provisions on foodstuffs, the Commission will be assisted by the Standing Committee on Foodstuffs, set up by Decision 69/414/EEC <sup>(7)</sup>;

Whereas, to avoid creating new barriers to free movement, Member States should refrain from adopting, for the products in question, national provisions not provided for by this Directive,

HAVE ADOPTED THIS DIRECTIVE:

*Article 1*

This Directive concerns coffee extracts and chicory extracts as defined in the Annex.

This Directive does not apply to 'café torrefacto soluble'.

These contents shall be expressed as a percentage by weight of the finished product.

*Article 3*

For the products defined in the Annex, Member States shall not adopt national provisions not provided for by this Directive.

*Article 4*

The decision to bring this Directive into line with the general Community provisions applicable to foodstuffs shall be made in accordance with the procedure laid down in Article 5.

## ANNEX

## PRODUCT DESCRIPTIONS, DEFINITIONS AND CHARACTERISTICS

## 1. 'Coffee extract', 'soluble coffee extract', 'soluble coffee' or 'instant coffee'

This means the concentrated product obtained by extraction from roasted coffee beans using only water as the medium of extraction and excluding any process of hydrolysis involving the addition of an acid or a base. Apart from those insoluble substances which it is technically impossible to remove, and insoluble oils derived from coffee, coffee extract must contain only the soluble and aromatic constituents of coffee. Member States shall ensure that the methods used to determine the free and total carbohydrate content of soluble coffees are in conformity with paragraphs 1 and 2 of the Annex to Council Directive 85/591/EEC of 20 December 1985 concerning the introduction of Community methods of sampling and analysis for the monitoring of foodstuffs intended for human consumption<sup>(1)</sup> and that they are validated or standardised, either already or as soon as possible.

The coffee-based dry matter content must be:

- (a) not less than 95 % by weight in the case of dried coffee extract;
- (b) from 70 % to 85 % by weight in the case of coffee extract paste;
- (c) from 15 % to 55 % by weight in the case of liquid coffee extract.

Coffee extract in solid or paste form must contain no substances other than those derived from the extraction of coffee. Liquid coffee extract may contain edible sugars, whether or not roasted, in a proportion not exceeding 12 % by weight.

## 2. 'Chicory extract', 'soluble chicory' or 'instant chicory'

This means the concentrated product obtained by extraction from roasted chicory using only water as the medium of extraction and excluding any process of hydrolysis involving the addition of an acid or a base.

'Chicory' means the roots of *Cichorium Intybus L.*, not used for the production of witloof chicory, usually used for the preparation of beverages, suitably cleaned to be dried and roasted.

The chicory-based dry matter content must be:

- (a) not less than 95 % by weight in the case of dried chicory extract;
- (b) from 70 % to 85 % by weight in the case of chicory extract paste;
- (c) from 25 % to 55 % by weight in the case of liquid chicory extract.

Chicory extract in solid or paste form may contain not more than 1 % by weight of substances not derived from chicory.

Liquid chicory extract may contain edible sugars, whether roasted or not, to a proportion not exceeding 35 % by weight.
